

# The Bike Box™

## Product Overview

With the dramatic rise in bicycle costs and the increase in bike thefts, multi-family residents are seeking safer storage and more convenient access to bikes and related equipment.

The Bike Box from Storage Box Solutions provides a quality built affordable solution for indoor and outdoor bicycle storage.

## Product Benefits

- Provides improved privacy and extra security for bikes and gear
- Free standing locker for easy positioning in open areas or storage rooms
- Decreases clutter and maintains a tidy well-kept appearance
- Quality construction from durable materials that are built to last
- Possible added revenue stream for apartment building owners
- Affordable monthly lease to own options reduces up front capital requirements
- Increases building value, market competitiveness and owner / tenant satisfaction
- Multiple sizes and configurations available
- Weatherproof for use in outdoor environments

# The Bike Box™

## Additional Features and Options

- Includes internal hooks for hanging bike related clothing and gear
- 3 standard colours and almost unlimited custom colours to choose from
- Powder coat can be applied in either a smooth or textured finish
- Optional remote controlled LED lighting
- Optional wireless managed RFID or keypad locking systems
- Perforated door to improve airflow

## Quality Built to be Strong and Durable

- All structural components are manufactured with heavy gauge G90 bonded steel
- All components are powder coat finished which is one of the longest lasting and most colour-durable finishes available on metal and is highly resistant to corrosion, chipping, scratching, fading, and wearing

## Available Sizes

Note: Horizontal Bike Box can be accessed from either end to separately store two bikes and can be stacked to maximize space utilization.

## Bike Related Accessories

Storage Box Solutions also provides a line of Bike Room Accessories including:

- Max Fill stainless steel air pump
- High Rise bike maintenance station

Both accessories can be securely located to reduce the risk of theft and are built of heavy gauge, high quality steel.
