

# The Bonnet Box™

## Product Overview

Access to adequate private storage in multi-family properties is a common problem for residents, which often leads to untidy parking areas, as well as the need for residents to rent additional off-site storage. The Bonnet Box from Storage Box Solutions is a great way to utilize existing space to add much needed storage for belongings such as golf clubs, bikes, seasonal clothing, seasonal tires, skis and other sporting goods, while ensuring a neat and uniform appearance.

## Product Benefits

- Free standing container with up to 127 cubic feet of storage space
- Provides convenient additional storage for residents
- Cost effective compared to off-site storage
- Secure locking systems to safeguard your belongings
- Easily stores bicycles and related gear
- Superior performance and appearance
- Decreases clutter and maintains a tidy well-kept appearance
- Quality construction from durable materials that are built to last
- Possible added revenue stream for apartment building owners
- Utilizes existing unused space within the building
- Affordable monthly lease to own options reduces up front capital requirements
- Increases building value, market competitiveness and owner / tenant satisfaction
- Comes in 6 sizes, all with adjustable legs to accommodate most parking stalls & vehicles

# The Bonnet Box™

## Features and Options

- Shelving and clothes hanging rod
- Secure 3-point locking with optional managed wireless RFID or keypad systems
- 3 standard colour's and custom colours available for larger orders
- Available remote control LED lighting
- Perforated top panels to allow sprinkler system access

## Quality Built to be Strong and Durable

- All structural components are manufactured in either a heavy gauge G90 bonded steel or galvanized cold rolled steel
- External panels, legs and beams are powder coat finished, which is one of the longest lasting and most color-durable finishes available on metal. It is also highly resistant to corrosion, chipping, scratching, fading, and wearing
- Internal, back and top panels are all carbon cold rolled galvanized steel which provides longer life, reduced maintenance, greater resistance to damage and easy cleaning
